

Exercise 15 Instructions

- Step 1 Open Illustrator
- Step 2 Create New Document Letter size Orientation horizontal.
- Step 3 Click on L (Ellipse tool) Create a circle in the large circle on the board.
- Step 4 Click on A (Direct selection tool) and click on bottom point path and delete.
- Step 5 Click on P (Pen tool) and connect bottom open ended points to close half circle.
- Step 6 Click on M (Rectangle tool) Move down a little below the half circle and create a rectangle. Rectangle width should be bigger than the top circle.
- Step 7 Click on A (direct selection tool) and hover over shape that the inner corners are visible. Click on one and make edges rounded.
- Step 8 Click on M (rectangle tool) and make a rectangle with the same width as the top half circle and the height should be slightly bigger than the middle rectangle.
- Step 9 Select the A (Direct selection tool) and select bottom left corner and bring it in. Do the same for the bottom right corner.
- Step 10 Repeat Step 7 to the shape to create rounded corners.
